Happy Canada Day

The Green Corner

Precipitation - the golf course / Manitoba hasn't seen this much in years. As a result our crew is doing everything it can to get the golf course playable again. It's a battle, a lot of standing water. Drainage is working well, however; pumps are still needed in certain areas. Gravel roads in the province are washed out and full of potholes. As are our cart paths. When they dry we will be able to repair them. Hopefully we will get more than 24 hours of dry weather. Praying.

Core Aeration was completed July 2. We started at 2:30 am and had the greens back up at 2:30 pm.

A 12 hour operation. Patients. They need a few days to fill in and recover.

On a positive note, your new tee off boxes on 14 and 15 will be playable very soon.

I believe you'll like the new look. Enjoy your shots.
