Golf Course Maintenance

Welcome back. Looks like we will finally be golfing, Wednesday, May 8th. Last year it was March 22nd - Wow !! We survived the coldest April in 100 years. There is still some snow on the course as of early May along tree lines and bushes where the sun hasn't got to. We have a few subsurface drainage lines that are still frozen. For the most part the snow melt has run off nicely. The greens look good. Turf wintered fairly well. We need the temperatures to get up there for growth. Get out there and enjoy the course.

We look forward to seeing you!
